

Outsulation® Plus MD®

Case Study

Dryvit EIFS is the Reliable Solution for St. Rose Dominican Hospital

When St. Rose Dominican Hospital of Las Vegas decided to create a third campus to meet the growing needs of their community, they sought a reliable and appealing exterior finish solution. Dryvit Outsulation Plus MD fulfilled their needs and now clads the new San Martín campus. The facility contains more than 100 private patient rooms as well as emergency, pediatric and cardiac services, and now has an exterior that is as reliable and trustworthy as its interior.

The project is not only clad with Outsulation Plus MD with a Sandblast® finish, but also makes use of other Dryvit products including AquaFlash® and Backstop® NT Smooth.

According to John Pitts, Field Superintendent for Performance Contracting, "I've used Dryvit since 1976, and we've always received very good help

Project Name:
St. Rose Dominican Hospital
Las Vegas, NV

Owner:
Catholic Healthcare West
Henderson, NV

Architect:
HKS Inc of Nevada
Dallas, TX

Sandblast

General Contractor:
Kitchell Contracting Inc
Phoenix, AZ

Dryvit Applicator:
Performance Contracting
Las Vegas, NV

Dryvit Distributor:
Calply
Las Vegas, NV

from them with any challenges on the job. As far as help with designing waterproof areas and stuff like that, they've always been there for us; and if we come across a challenge on a job, Dryvit will send someone to come look at it with us."

Nearly 100,000 square feet of Dryvit Outsulation Plus MD was used on the San Martín building and the process went smoothly. "When Dryvit came out with AquaFlash, it definitely sped things up for us," stated Pitts. "We made better time without having to play around with the flashing tapes."

Performance Contracting uses EIFS for over 75 percent of their jobs. "This branch was established in Vegas in 1998 and has been using Dryvit nearly exclusively since then," added Pitts.

For the owners of St. Rose Dominican Hospital, Dryvit has provided the exterior cladding that will allow patients to feel

safe and secure. Simply stated by Pitts, "We use Dryvit because Dryvit stands behind their product better than any others."
