1. Identification

Product Information: 012705198
Product Name: Weatherlastic® Smooth, Sanded Weatherlastic® Smooth, Weatherlastic® Smooth - Si
Recommended Use: Restricted to professional users
Uses advised against: Not suitable for use in homeworker (DIY) applications
Supplier: Dryvit Systems, Inc.
One Energy Way
West Warwick, RI 02893
800-556-7752
Emergency telephone number: Chemtrec: +1-800-424-9300 USA
Chemtrec: +1 703-527-3887 ex-USA

2. Hazards Identification

GHS Classification in accordance with 29 CFR 1910.1200
Carcinogenicity, category 1A
Skin Sensitizer, category 1

GHS Pictograms

Signal Word
Danger

Unknown Acute Toxicity
31.3% of the mixture consists of ingredients of unknown acute toxicity

HAZARD STATEMENTS
May cause an allergic skin reaction.
May cause cancer.
Precautionary Statements - Prevention
Obtain special instructions before use.
Avoid breathing dust/fume/gas/mist/vapours/spray.
Wear protective gloves/protective clothing/eye protection/face protection.
Precautionary Statements - Response
If on skin: Wash with plenty of water
If exposed or concerned: Get medical advice/attention.
If skin irritation or rash occurs: Get medical advice/attention.
Precautionary Statements - Storage
Store locked up.
Precautionary Statements - Disposal

The exact percentage (concentration) of composition has been withheld as a trade secret.

4. First-aid Measures

Description of first-aid measures

General advice
No Information
Inhalation
Move to fresh air.
Skin contact
Wash skin with soap and water.
Eye contact
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
Ingestion
Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Gently wipe or rinse the inside of the mouth with water.

Symptoms.
See Section 2.2, Label Elements and/or Section 11, Toxicological effects.

Notes to physician
Treat symptomatically. Ingestion, depending on the dose, can cause i.a. abnormal behaviour, unconsciousness, convulsions, respiratory paralysis, pulmonary oedemas, as well as damages to liver and kidneys and can lead, in the worst case, to death. A quick treatment of an ethylene-glycol intoxication, when necessary with haemodialysis, may reduce the toxic effects. Intravenous ethyl alcohol in sodium bicarbonate solution is an approved antitoxin.

5. Fire-fighting Measures

Extinguishing media
Suitable extinguishing media
No Information
Extinguishing media which shall not be used for safety reasons
None.

Special hazards arising from the substance or mixture
No information available.

Advice for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.
6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures
Personal precautions
No Information
Advice for emergency responders
Use personal protective equipment. Ensure adequate ventilation, especially in confined areas.

Environmental precautions
Prevent product from entering drains. See Section 12 for additional Ecological information.

Methods and materials for containment and cleaning up
Methods for Containment
Prevent further leakage or spillage if safe to do so. Pick up and transfer to properly labeled containers.
Methods for cleaning up
No Information

References to other sections
See section 8 for more information.

7. Handling and Storage

Conditions for safe storage, including any incompatibilities
Advice on safe handling
No Information
Hygiene measures
General industrial hygiene practice. When using do not eat or drink.

Storage Conditions
Store container tightly closed in a dry and well-ventilated place.

8. Exposure Controls / Personal Protection

Ingredients with Occupational Exposure Limits

TLV = Threshold Limit Value  TWA = Time Weighted Average  PEL = Permissible Exposure Limit  STEL = Short-Term Exposure Limit  N.E. = Not Established

Engineering Measures
Showers, eyewash stations, and ventilation systems.

Personal protective equipment
Eye/face Protection
Safety glasses with side-shields.
Skin and body protection
Wear suitable protective clothing. Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation. 

Material of gloves: The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application. 

Penetration time of glove material: The exact break through time has to be found out by manufacturer of the protective gloves and has to be observed.

Respiratory protection

Respiratory protection In case of insufficient ventilation wear suitable respiratory equipment. If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Respiratory protection must be provided in accordance with current local regulations.

Hygiene measures

General industrial hygiene practice. When using do not eat or drink.
