

OUTSULITE® SECUROCK® EXOAIR® 430

MODULITE™
Prefabricated Solutions

Industry-Leading Panel System with Dryvit
Outsulation and Securock ExoAir 430 Air Barrier

Product Overview

The most versatile Modulite panel system, Outsulite® provides the strength and versatility to configure to any panel shape, and is designed in accordance with current AISI Standards and manufacturer load tables. Deflections are limited to L/240. Stud, sheathing and building connections are engineered by panel fabricators to conform with building code design load requirements.

At approximately 9 lb/ft², Outsulite panels are a lightweight alternative to conventional systems, providing a single structural system for supporting the exterior cladding, window systems and other accessories.

The Securock ExoAir 430 System is a high-performance, energy efficient air and water barrier system comprised of the USG's Securock® Brand UltraLight Glass-Mat Sheathing, Tremco's ExoAir 430 membrane, as well as system accessories. Securock ExoAir 430 is a pre-applied fluid-applied synthetic permeable air/water barrier. It has a monolithic, elastomeric membrane that is applied in a factory setting. This can eliminate the inconsistencies and weather impact that can occur when applied in the field.

Features & Benefits

- Maximum insulation in a single structural system for supporting cladding, window systems and more
- Perfect for tight job sites
- Single structural system for supporting cladding, fenestration systems and more
- Controlled factory application of Securock Exoair 430 ensures proper mil thickness and membrane uniformity
- Outsulite with Securock ExoAir 430 option can speed your project without compromising performance.
Exclusively from Dryvit!

System Components

1	Light-Gauge Steel Framing
2	Securock® ExoAir® 430 Air/Water-Resistive Barrier Sheathing
3	Dymonic® 100 Detailing Sealant
4	Expanded Polystyrene (EPS) w/ Dryvit Adhesive
5	Reinforcing Mesh (<i>Embedded in Base Coat</i>)
6	Base Coat
7	Finish Coat

Why Build with Modulite Prefabricated Panels?

Speed construction or restoration. Simplify installation. Extend the construction season. A structure built with Modulite prefabricated panels means more for everyone – more satisfied contractors, more comfortable occupants or tenants, and more efficient structures and cost-effective operation for owners.

Faster Construction Time

In-plant fabrication can reduce production time, and speed up field application of exterior cladding systems, to reduce construction schedules.

Any Look You Want

A wide range of colors and finishes like brick, granite, metals, stucco and more provide maximum flexibility in your façade aesthetic.

Stronger and More Resilient

Our systems are designed for maximum durability, many with service lives far surpassing that of competing systems.

Avoid Labor Shortage Problems

Pre-fabricated Dryvit panels can help address ongoing shortages in the skilled labor force – while simultaneously maximizing quality control.

Cost-Effective for the Long Term

A broad range of products can fit most project budgets – but our energy-efficiency and maintenance solutions can also help you ensure cost-effective ownership and operation for the long term.

Better Insulated

Industry-leading Outsulation® continuous insulation means efficient construction and operation, and will exceed strict energy codes for insulation.

One Point of Contact

Our products and systems are backed by industry-leading warranties – all from a single point of contact. We can also help with everything from asset management to diagnostics to installer training.

Leading Edge Sustainability

Our building solutions help you reduce waste, and meet green building standards like Net Zero, Living Building Challenge, Passive House and more.
