

The background of the entire image is a photograph of a sunset over the ocean. The sky is filled with clouds in shades of blue, purple, and orange. The sun is low on the horizon, creating a bright orange glow. The ocean is visible at the bottom. On the right side of the image, there is a vertical bar composed of six horizontal color swatches: light blue, pink, yellow, orange, light orange, and dark blue. The text 'STANDARD' is in a smaller font above 'COLORS', which is in a very large, bold font. Below 'COLORS' is the text 'FOR ACRYLIC FINISHES AND COATINGS'. At the bottom left is the Dryvit logo and the tagline 'BUILD THE TREND'.

STANDARD COLORS

FOR ACRYLIC FINISHES
AND COATINGS

 **Dryvit**® | BUILD THE TREND

Bold choices are setting building trends.

Color is often considered to be the most obvious and expressive element in architectural design. Combined with shape and texture, color will emphasize a building's character and affect the way it's experienced in its surroundings.

For over 50 years, our selection of industry-leading finishes has allowed architectural trendsetters to make the bold choices necessary for their projects to stand out. From traditional options to the most unique alternatives, every Dryvit® system offers vivid, fade-resistant finishes that are easily achieved thanks to our **StratoTone™** colorant technology.

Dryvit **StratoTone™** colorant technology improves the accuracy, consistency and long-term stability of your building's exterior while dramatically increasing its UV resiliency with virtually no VOC or APEO content.

If your next project is a colorful classic that requires bold trendsetting choices, Dryvit is here to help turn your vision into reality.
