

## EXHIBIT

**Warranty No.: [Project Number]-[Warranty Number]**

### **Finishes/Coatings/Veneers/Direct Applied Finishes (Over Stucco)**

Subject to the terms, conditions, and limitations stated in this warranty, the Company warrants to the Owner that, for the period stated in the table below from the Date of Project Substantial Completion (the "Warranty Period"), the Product(s) (excluding ShieldIt™ brand Products), when installed as directed and under normal weather conditions (specifically excluding unusual air pollution), will (1) not delaminate as a result of a defect in the manufacture of the materials and (2) have a finish which will be UV fade resistant for the lesser of the Warranty Period, a period of 10 years from the Date of Project Substantial Completion for standard colors, or for a period of 5 years from the Date of Project Substantial Completion for specially produced colors formulated with StratoTone™ colorants (excluding Weatherlastic® HB or Tammscoat™ brand Products). For ShieldIt™ brand Products, Company warrants to the Owner that, for the period stated in the table below from the Date of Project Substantial Completion, the base coats are warranted against puncture by woodpeckers.

Notwithstanding anything to the contrary in this warranty:

- The Company warrants color and appearance only as noted above;
- No warranty whatsoever is made with respect to cracking;
- A watertight condition is not warranted, unless the Product is used in conjunction with joinery and sealants approved Company; and
- No warranty whatsoever is made with respect to or defects or claims arising from other construction products not sold by the Company, including, without limitation, stucco or stucco applied substrates on which the Products are applied.
